

The Derma Co's Problem-Solution *PLAYBOOK.*

STRATEGY
Teardown

How clinical active dosages (AHA, BHA, Kojic Acid) and dynamic DPA feeds beat generic beauty ad fatigue.

SWIPE →

THE BEAUTY TRAP

Generic lifestyle ads fail to build trust *SATURATION.*

Consumers with active acne or pigmentation ignore generic model shots.

When scaling ad spend, leading with dermatologist-backed clinical actives captures problem-aware buyers.

SWIPE →

3% AHA+BHA

CLINICAL
DOSAGE

**Naming exact actives
and target concerns *TARGETING.***

The Derma Co puts active concentrations (3% AHA+BHA, 2% Kojic Acid) front and center to establish instant clinical credibility.

SWIPE →

FUNNEL ARCHITECTURE

Free combo bundle with app install push *FUNNEL.*

Combining a high-value entry gift with mobile app downloads locks in repeat buyers.

Using dynamic catalog ads to offer structured routine kits lifts
Average Order Value by 38%.

SWIPE →

3.8X ROAS

DYNAMIC
RETENTION

**Advantage+ delivery
stabilization at scale** *STABILITY.*

Dynamic Product Ads (DPA) automatically retarget browsing users
with their exact skin concern items.

SWIPE →

+46% LTV

Routine bundles protect gross margins

MARGINS.

Selling complete 3-step regimens prevents margin erosion from single low-ticket SKU orders.

Clinical education drives customers to purchase cleansers, serums, and sunscreens together.
